

## CAREER DAY MARCH 16, 2012

**Career Day is scheduled for Friday, March 16, 2012  
from 8:00 am to 12 noon.**

We hope that you will consider joining us this year to share your experience and knowledge. Our students continually rave about this day and truly look forward to meeting alumni like you, the people who sat in the very seats they sit in today. As you know, any positive influence we can have in the lives of impressionable young adults is hugely important in their growth both as students and professionals.

The purpose of Career Day is to make students aware of the possibilities for their future. Mattignon wishes to highlight these opportunities so our students can find connections between what they are taught at school and the “real world.” As a participant we hope you will provide an opportunity for our students to learn about themselves and their career interests. As we all know, there is no direct path and as these students navigate and embark on the journey toward higher education or go directly into the workforce, providing guidance or clarity can make a world of difference.

For many teens, the hardest questions to answer are related to what they want to pursue as a career. For others, they have a plan and know what steps are necessary to prepare for the future. By listening to you and by asking questions our students will have a better understanding of what they want.

This is an excellent no-cost opportunity to establish connections with students. It is also a great way to influence students on their career path. Please respond by 3/8/2012 via email to [jcarabel@matignon-hs.org](mailto:jcarabel@matignon-hs.org) (Joe Carabello) or [flevas@matignon-hs.org](mailto:flevas@matignon-hs.org) (Fran Levas) if you are interested in participating. Please note that we would like to put together a packet of information for our students ahead of time so that we may highlight our alumni participants. With that said, upon expressing your interest to participate, we will then ask you to fill out a short questionnaire so that we may gather the appropriate data to share with our students.

*We hope that you will consider this request and  
make a difference in our students' lives and future careers.*
